Synthetic rope TK

Technical specifications

Material: polyester and polypropylene

Standard: EN 919; EN 10556

Construction: 8 strands braided (4x2)

Use: towing, offshore

Certifications: Lloyd's Register si GL

Diameter (mm)	Weight (g/m)	Strength (kg)	Strength (kN)
36	717	29100	285,5
40	885	35860	351,8
44	1070	42990	421,8
48	1270	49950	490
52	1500	57800	567
56	1730	66180	649,3
60	1990	75640	742
64	2270	85630	840
68	2560	95960	941,3
72	2870	107570	1055,3
76	3200	119880	1176
80	3540	132190	1296,8
88	4280	158590	1555,8
96	5100	183990	1805

Density	1,14 g/cm3
Floating	NO
Maximum temperature	120 °C
UV resistance	very good
Acid resistance	good
Alkaline resistance	good
Resistance to organic solvents	very good
